

Committed to helping people live an active and pain-free life.

We are a company committed to the development of health and wellness technology that assists people suffering from pain to live a more active, pain-free life.

We believe that people suffering from pain and ongoing conditions deserve relief without the side effects of pain medication. Our revolutionary **OSKA Pulse** uses innovative technology that optimizes the effectiveness of Pulsed Electromagnetic Fields (PEMF) Therapy, which is similar to PEMF therapies used in many clinical applications that promote the body's ability to recover naturally.

OSKA PULSE

WHAT OUR CUSTOMERS HAVE TO SAY ABOUT THE EFFECTIVENESS OF OSKA PULSE:

How was I going to undertake a return trip from Coogee to Cooktown, driving 25,000 kms in ten weeks? Only one answer - **OSKA Pulse** strapped to my side every day.

Jim

The only answer to my back pain started as a cocktail of medications. Then I discovered **OSKA Pulse** which eliminated my pain and I threw out a drawer-full of expired medicines.

Denise (Greenwood WA)

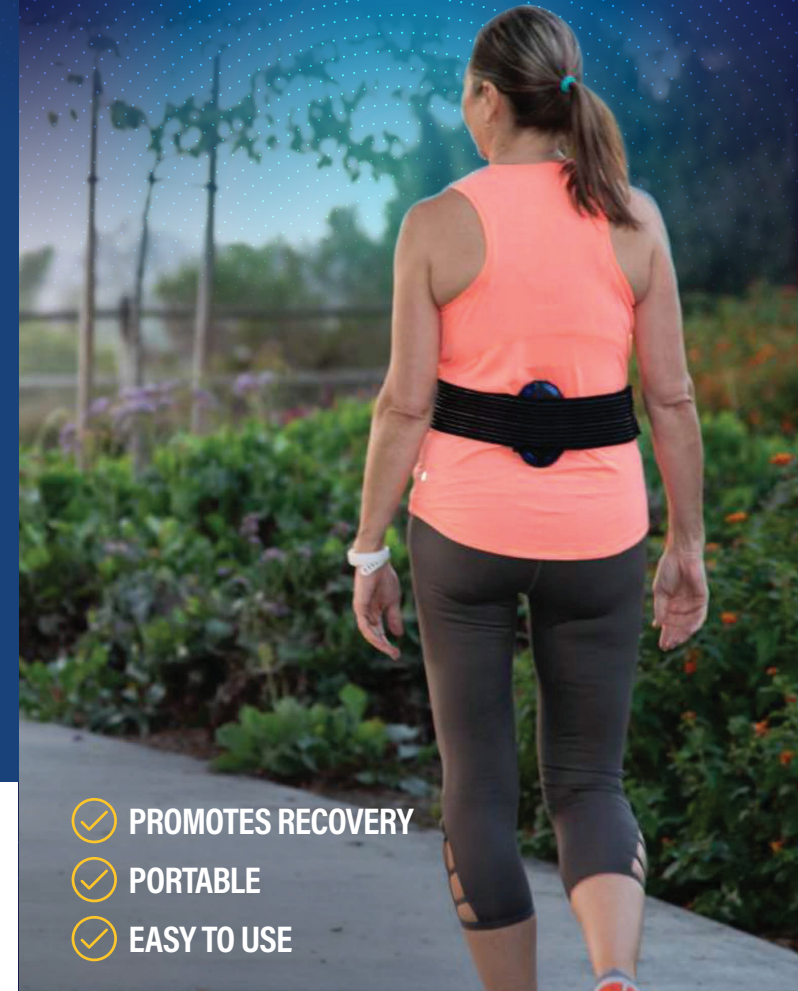

I've only used OSKA for two days and already I feel 10 years younger.

Christine (Alexander Heights WA)

Mum is very happy with her OSKA. A lot less pain, sometimes none.

Debra (Alice Springs NT)

Drug-Free Pain Relief & Improved Healing with OSKA PULSE

- ✓ PROMOTES RECOVERY
- ✓ PORTABLE
- ✓ EASY TO USE

OSKA PULSE

Take control of your pain and recovery

What is OSKA Pulse?

OSKA Pulse is included on the ARTG as a Class IIA Medical device to be used alone or as an adjunctive therapy for improved healing of existing conditions, reduce inflammation and as an additional therapy in treating osteoarticular conditions, ie arthritis. It mimics the natural electrical signals produced by the body to promote recovery. Compact, portable, non-invasive and hands free, it provides drug-free, pain relief.

How does OSKA Pulse work?

OSKA Pulse uses a series of specifically configured Pulsed Electromagnetic Fields (PEMF) getting to the source of your pain, without drugs.

PEMF has been considered effective and non-invasive way to relieve pain for nearly 70 years, with over 10,000 clinical studies supporting its effectiveness and widely used by NASA, pain clinics and health professionals in the USA and Europe.

Non-Invasive and Easy to Use

OSKA Pulse does not need to be directly attached to the skin but simply near the source of the pain/area requiring recovery to be effective. PEMF fields can travel through clothing to address the source of the issue at cellular level.

Developed in Western Australia and manufactured in the USA, OSKA Pulse is designed to be fully integrated into your lifestyle so that you and your family can benefit anytime, anywhere you are.... work or play.

Your non-invasive, easy to use, drug-free, portable, pain relief and improved healing device...

PROMOTES RECOVERY

Most pain management solutions simply block the pain. OSKA Pulse is designed for relieving pain and inflammation anywhere in your body and improving healing.

PORTABLE

A small, portable hands-free device that can be worn over clothing, providing drug-free relief for knee, back, joint, acute and chronic pain.

Accelerating nature, not replacing it

EASY TO USE

OSKA Pulse starts with a simple push of a button and handy USB cable makes charging easy.

This product may not be right for you. Read the warnings before purchase. Follow the instructions for use, and if symptoms persist talk to your healthcare professional.

You have nothing to lose but your pain!
